

The 11th Asian Regional Conference of IAEG

28–30 November 2017

Kathmandu, Nepal

"Engineering Geology for Geodisaster Management"

www.iaegarc11ngs.com

ARC-11
Nepal Geological Society

Lead Organizer

Nepal Geological Society

Sponsor

**International Association for Engineering
Geology and the Environment (IAEG)**

Programs and Technical Sessions

The 11th Asian Regional Conference of IAEG

Associated Partners:

National Planning Commission, Ministry of Irrigation	Nepal Academy of Science and Technology (NAST)
National Reconstruction Authority (NRA)	President Chure-Terai Madhesh Conservation Development Board
Department of Mines and Geology	Central Department of Geology, Tribhuvan University
Department of Geology, Tri-Chandra Campus	International Centre for Integrated Mountain Development (ICIMOD)
Nepal Electricity Authority	National Society for Earthquake Technology-Nepal (NSET Nepal)
Nepal Engineers' Association (NEA)	Nepal Tunneling Association Nepal Hydropower Association
Nepal Landslide Society	Himalayan Landslide Society
Nepal Hydrogeological Association	Society of Hydrologists and Meteorologists (SoHaM)

International Partners:

International Consortium on Geo-disaster Reduction (ICGdR)
Center for Disaster Management Informatics Research, Ehime University
Faculty of Engineering, Kagawa University, Japan
Trumer Schutzbauten, Austria
Japan Society of Engineering Geology (JSEG)
Indian Society of Engineering Geology (ISEG)

Conference Sponsors:

National Planning Commission
Ministry of Irrigation
Department of Mines & Geology

Table of Contents

1	Executive Meetings.....	1
2	Registration.....	1
3	Council Meeting.....	2
4	Pre-conference excursion.....	2
5	Exhibitions: Hall - Regal 2.....	2
6	YEG Event.....	3
6.1	Tentative schedule of YEG event.....	3
7	Inaugural Ceremony.....	4
8	Conference Day 1: 28th November.....	5
8.1	The 2016 Hans-Cloos Lecture of IAEG.....	5
8.2	Day 1 - Keynote Presentation Session - 1.....	5
8.3	Day 1 - Parallel Technical Sessions.....	6
8.4	Day 1 - Poster Session - 1.....	13
9	Conference Day 2: 29th November.....	17
9.1	Day 2 – Keynote Presentation Session - 2.....	17
9.2	Day 2 – Keynote Presentation Session - 3.....	17
9.3	Special Lecture.....	18
9.4	Invited Lectures.....	18
9.5	Day 2 - Parallel Technical Sessions.....	19
9.6	Day 2 - Poster Session - 2.....	24
10	Conference Day 3: 30th November.....	28
10.1	Day 3 - Keynote Presentation Session - 4.....	28
10.2	Day 3 - Parallel Technical Sessions.....	28
10.3	Field Excursion - Introductory Session.....	30
11	Valedictory Session.....	38

1 Executive Meetings

Executive meeting of International Association of Engineering Geology and Environment will be held in **Library Hall, Hotel Yak and Yeti**. Detail program will be provided during meeting.

Hall - Library		
Date	Time	Activities
2017/11/24	9:00-12:30	Executive Meeting of IAEG
	12:30-13:30	Lunch at Hotel Yak and Yeti
	13:30-17:00	Executive Meeting of IAEG
	18:30-20:30	Dinner at Hotel Yak and Yeti
2017/11/25	9:00-12:30	Executive Meeting of IAEG
	12:30-13:30	Lunch at Hotel Yak and Yeti
	13:30-17:00	Executive Meeting of IAEG
	18:30-20:30	Dinner at Hotel Yak and Yeti

2 Registration

Registration desk will be opened from 2017/11/26, 8:00 hours onward until 2017/11/30, 13:00 hours. All participants can register and get conference kit from registration desk along with abstract volume and conference program booklet. Participants who are registered to pre-conference excursion need to collect name card and lunch coupon from registration desk on 2017/11/26.

3 Council Meeting

Council meeting of International Association for Engineering Geology and Environment (IAEG) will be held in Crystal Hall of Hotel Yak and Yeti. Detail program will be provided during meeting.

Hall - Crystal		
Date	Time	Activities
2017/11/26	9:00-12:30	Council Meeting of IAEG
	12:30-13:30	Lunch at Hotel Yak and Yeti
	13:30-17:00	Council Meeting of IAEG
	18:30-20:30	Dinner at Hotel Yak and Yeti

4 Pre-conference excursion

Pre-conference excursion will be held on November 27, 2017. All registered participants are requested to gather outside of Hotel Yak and Yeti before 7:30 AM.

5 Exhibitions: Hall - Regal 2

Hall - Regal 2 will have exhibitions from sponsors, companies and institutions. The exhibitions will start from 8:00 hours of 28th November and end at 17:00 hours of 30th November.

Booth Number	Name of Exhibitors
B-1	International Geological Congress 2020 (IGC-2020)
B-2	International Geological Congress 2020 (IGC-2020)
B-3	Earth Scanning Association, Yokohama, Japan
B-4	Trumer Schutzbauten/ Geotech Solutions International, Nepal
B-5	KUMONOS Corporation, Osaka, Japan
B-6	OYO Corporation, Tokyo, Japan

B-7	OYO Corporation, Tokyo, Japan
B-8	International Consortium on Geodisaster Reduction (ICGdR), Japan
B-9	Nepal Geological Society
B-10	International Association for Engineering Geology and the Environment

6 YEG Event

The International Association for Engineering Geology and the Environment invited all members under 40 years of age to attend the ARC-11 Young Engineering Geologists event in Kathmandu on the 27th of November 2017.

The event is going to take place on the afternoon of the pre-conference excursion (27th of November 2017), and going to have short technical talks from 8 participants, refreshments and an ice-breaker evening in **Hotel Woodland, Darbarmarg, Kathmandu, Nepal**.

6.1 Tentative schedule of YEG event

Date	Time	Activities
2017/11/27	12:00	Pick up YEGs from excursion lunch stop at Bhaktapur
	13:00	Arrival at venue, download all presentations
	13:30 – 14:00	Introduction, keynote speaker from the executive committee
	14:00 – 15:00	Technical sessions
	15:00 – 15:30	Break- tea, coffee, and light snacks
	15:30 – 16:30	Technical sessions continue
	16:30 – 17:00	Break, decision for best presentation award
	17:00 – 18:00	Short question-answer session, award prize, closing presentation
	18:00 – 21:00	Ice break and dinner

7 Inaugural Ceremony

The 11th Asian Regional Conference (ARC-11) of IAEG (International Association of Engineering Geology and Environment) inauguration by the chief guest, Rt. Hon'ble Bidhya Devi Bhandari, President of Nepal.

Hall - Regal 1

Time	Activities
7.00 - 8:30	Registration
9:00 – 10:25	Inauguration Ceremony
10:25-10:30	Photo Session – with executives and invited delegates
10:30	Closing of the ceremony and High Tea

Master of Ceremony (MC): ***Kriti Bhattarai***

The 11th Asian Regional Conference of IAEG

November 28–30, 2017, Kathmandu, Nepal

8 Conference Day 1: 28th November

8.1 The 2016 Hans-Cloos Lecture of IAEG

Chairperson: *Prof. Dr. Scott F. Burns, President, International Association of Engineering Geology and Environment*

Co-Chairperson: *Dr. Ranjan Kumar Dahal*

Hall - Regal 1

Time	Title of Papers	Authors
11.00-12:00	1. Geo-engineering aspects on the structural stability and protection of historical man-made rock structures: An overview of Cappadocia Region (Turkey) in the UNESCO's World Heritage List	Reşat Ulusay and Ömer Aydan

8.2 Day 1 - Keynote Presentation Session - 1

Chairperson: *Dr. Danda Pani Adhikari*

Co-Chairperson: *Dr. Xuanmei Fan*

Rapporteurs: *Mr. Bharat Bhandari and Mr. Govinda Pathak*

Hall - Regal 1

Time	Title of Papers	Authors
12:00-12:30	2. A major role for engineering geologists and geotechnical engineers internationally - help produce resiliency plans for major hazards with an example from Oregon, USA	Scott F. Burns
12:30-13:00	3. Gravitational slope deformations that precede catastrophic landslides triggered by rainstorms and earthquakes	Masahiro Chigira and Noriyuki Arai
Introductory presentation from Conference Sponsor:		
13:00-13:05	<i>Introduction to Trumer Schutzbauten/Geotech Solutions International, Dr. Manita Timilsina</i>	
13:05-14:00	Lunch Break – Lunch at Madhuban Garden, Hotel Yak and Yeti	

8.3 Day 1 - Parallel Technical Sessions

Technical Session I: Engineering Geology of Landslides – Landslide Mechanism

Chairperson: *Prof. Dr. Faqwan Wu*

Co-Chairperson: *Mr. Churna Bahadur Wali*

Rapporteurs: *Mr. Suman Pandey and Ms. Sabina Khatri*

Hall - Regal 1

Time	Title of Papers	Authors
14:00-14:15	1. Mechanism of Landslides along road in the Jiuzhaigou scenic spot, Sichuan, China	<i>Yun-sheng Wang, Bo Zhao, Jia Li, Tong Shen, Qian-qian Feng</i>
14:15-14:30	2. Rainfall failure mechanism of Bedding Slope with inclined Argillic Interbed	<i>Li Long-qi, JU Nengpan, Deng Tianxin, Yanbin Jiang, Zhang Shuai</i>
14:30-14:45	3. Hydrology and Hydrogeology Study in Musi Banyuasin District, South of Sumatera	<i>Asti Sulastri, Jejen Ramdani, M Fauzan Septiana, Andyono B. Santoso</i>
14:45-15:00	4. Mechanism and Disasters Characteristics of Complex Structural Rock Mass Along the Rapidly Uplift Section at the Upstream of Jinsha River	<i>Chen Jianping, Wang Qing</i>
15:00-15:15	5. Numerical study of shear strength of non-persistent open joints with different normal stresses using PFC2D	<i>Chonglang Wang, Shengwen Qi</i>
15:15-15:30	6. Calibration and performance of numerical models to simulate the recent Xinmo landslide (Sichuan, China) and assess secondary hazard	<i>Gianvito Scaringi, Xuanmei Fan, Qiang Xu, Guillem Domènech, Fan Yang, Lanxin Dai</i>
15:30-15:45	7. The characteristics of landslides in metamorphic rock area of the Duhe river basin in China	<i>Guangli Xu, Zhigang Li, Xin Zhao, Yongpeng Fu</i>
15:45-16:00	8. Study of co-seismic rockfalls in Greece	<i>Haris Saroglou, and Dimitrios Zekkos</i>
16:00-16:15	Tea Break	

Technical Session II: Engineering Geology of Landslides - Landslide Mechanism**Chairperson:** Prof. Dr. Ko-Fei Liu**Co-Chairperson:** Dr. Moti Lal Rijal**Rapporteurs:** Mr. Rabindra Dhakal and Ms. Indira Shiwakoti

Hall - Regal 1		
Time	Title of Papers	Authors
16:15-16:30	9. Lithostratigraphical control on Landslide in Babai Khola watershed of the Sub Himalayan Zone, Nepal	Bharat Prasad Bhandari and Subodh Dhakal
16:30-16:45	10. Shear behavior of unfilled granitic joints with reference to weathering grade	Bikash Kumar Ram and Arindam Basu
16:45-17:00	11. A study on the contribution of roughness component to peak friction angle of rock discontinuities	Hemant Kumar Singh and Arindam Basu
17:00-17:15	12. A Conceptual Model of Geomorphological Evolution in a Gigantic Paleo-landslide Site	Ting-Hua Wei, Yen-Chieh Huang, Kuo-Wei Li , Yii-Wen Pan, Jyh-Jong Liao
17:15-17:30	13. Stabilization measures of stream planform in the Siwalik Hills of Nepal – evaluation results of a pilot project	Daisuke Higaki , Naoto Koiwa, Mio Takahashi, Sohan Kumar Ghimire, Tara Bhattarai and Kishor Kumar Karki
17:30-18:00	Break for Welcome Reception Preparation	
18:00-21:00	Welcome Reception – Madhuban Garden, Hotel Yak and Yeti	

Technical Session III: Foundation, Tunneling, Underground geology, Groundwater**Chairperson:** Prof. Dr. Masakatsu Miyajima**Co-Chairperson:** Mr. Ram Hari Sharma**Rapporteurs:** Mr. Santosh Adhikari and Mrs. Tara Pokhrel

Hall - Dynasty		
Time	Title of Papers	Authors
14:00-14:15	14. Conceptual Design of Ie - Motobu Subsea Tunnel, Okinawa, Japan	Ömer Aydan , Naohiko Tokashiki, and Koichi Suzuki
14:15-14:30	15. Compression Behavior of Reconstituted Clay: A Study on Kalomato	Bhim Kumar Dahal and Jun-Jie Zheng

14:30-14:45	16. Inherent and stress-induced anisotropy of hydraulic conductivity around a rock tunnel - equivalent continuum approach	Huang-Kuei Chu, Po-Sung Lai, and Jia-Jyun Dong
14:45-15:00	17. Quantitative GSI determination of Singapore's sedimentary rock mass	Kar Winn and Louis Ngai Yuen Wong
15:00-15:15	18. Groundwater Fluctuation Simulation in Pagelaran Landslide, Cianjur, Indonesia	Twin H.W. Kristyanto, Asriza, Reza Syahputra, and Tito L. Indra
15:15-15:30	19. System Reliability Analysis of a Circular Tunnel Face Stability Considering a Two-layered Ground	Peng Zeng, Tianbin Li, Salvador Senent, and Rafael Jimenez
15:30-15:45	20. Landslide hazard assessment for pipeline of Natural Gas Transport - Experiences from TAP pipeline along Greek and Albanian territory	Vassilis P. Marinou, G. Stoumpos, G. Papathanassiou, and K. Papazachos
15:45-16:15	Tea Break	

Technical Session IV: Engineering Geology in sustainable development and urban planning

Chairperson: *Dr. Ömer Aydan*

Co-Chairperson: *Dr. Shengwen Qi*

Rapporteurs: *Mr. Prabin Tumbapo and Mr. Swaroop Singh Karki*

Hall - Dynasty

Time	Title of Papers	Authors
16:15-16:30	21. Liquefaction-induced Damage to Residential Houses and Its Effects to Health Problems of Residents in the 2016 Kumamoto Earthquake in Japan	Yuko Serikawa and Masakatsu Miyajima
16:30-16:45	22. Dating a large-scale debris flow event using terrestrial cosmogenic nuclide: an attempt in Marshyangdi River, central Nepal	Yuki Matsushi, Hiroshi Yagi, and Hiroyuki Matsuzaki
16:45-17:00	23. Assessment of exogenous geological hazards in Moscow	Olga Eremina, I. Kozliakov, and O. Mironov
17:00-17:15	24. Determination of deep subsurface shear wave velocity structure in the central part of the Kathmandu valley, Nepal using broad band seismograph arrays for long period microtremor	Mukunda Bhattarai, Lok Bijaya Adhikari, Bharat Prasad Koirala, Dinesh Nepali, Santosh Dhakal, Suresh Shrestha, Toshiaki Yokoi, and Takumi

		<i>Hayashida</i>
17:15-17:30	25. SMRM fieldwork platform for rock engineering	Jie Wu
17:30-18:00	Break for Preparation	
18:00-21:00	Welcome Reception – Madhuban Garden, Hotel Yak and Yeti	

Technical Session V: Geohazards in Asia

Chairperson: *Prof. Dr. Reşat Ulusay*

Co-Chairperson: *Mr. Dharma Raj Khadka*

Rapporteurs: *Mr. Narayan Adhikari and Mr. Prakash Pokhrel*

Hall - Regency

Time	Title of Papers	Authors
14:00-14:15	26. Paleo-seismic archive in the Kathmandu basin sediments: an assessment of seismic hazard scenario in the central Himalaya	Ananta Prasad Gajurel and Tetsuya Sakai
14:15-14:30	27. The observation of the total number of fractures in Toba Caldera to discover the potential of phreatic type eruption from Mount Toba	Faris Primayudha, Choirul Risman, Muhammad Ali Akbar, Rifqi Aditya, Safira Nurul Imani
14:30-14:45	28. Dynamic Quaternary magmatism and volcanic activities in the Japan Alps as revealed by U-Pb zircon dating	Hisatoshi Ito
14:45-15:00	29. Tsunami Boulders and Its Implications on the Mega Earthquake Potential along Ryukyu Archipelago, Japan	Ömer Aydan and Naohiko Tokashiki
15:00-15:15	30. Probabilistic damage assessment of strong earthquake scenarios in Koyna region, India	S. M. S. Prakash Dev and R. Nagarajan
15:15-15:30	31. Volcaniclastic Stratigraphy of Tangkuban Perahu Volcano and How It is Used to Predict the Future Hazardous Eruptions	Abriyanto Putra S. N., Aji Ahmed M., Kevin Estonio, Maria Johana M. W., Raihan Zidan I, and Twin Hosea W. K.
15:30-15:45	32. Asperity models for earthquakes based on co-seismic displacements	Zhengfang Li and Bengang Zhou
15:45-16:00	33. Comparative study between Debris Flow of Wide-Gentle and Narrow-Steep Channel based on Hazard Mechanism and	Mei Han

	Prevention Measures	
16:00-16:15	Tea Break	

Technical Session VI: Rockfall hazard and its mitigation

Chairperson: *Dr. Markus Haidn*

Co-Chairperson: *Mr. Mukunda Raj Poudel*

Rapporteurs: *Mr. Krishna Shrestha and Ms. Sunu Dawadi*

Hall - Regency

Time	Title of Papers	Authors
16:15-16:30	34. Axial monotonic behavior of fully grouted tension anchor in rockfall barrier foundation.	Sunil Poudyal , <i>Darshan Babu Adhikari, Manita Timilsina, and Ranjan Kumar Dahal</i>
16:30-16:45	35. A case study of rockfall at Upper Bhotekoshi Hydroelectric Project site to provide suitable mitigation measures	Darshan Babu Adhikari , <i>Manita Timilsina, Ranjan Kumar Dahal and Akal Bahadur Singh</i>
16:45-17:00	36. A impact-induced fragmentation model for predicting the runout of brittle fragmentable rockfall	Gang Luo , <i>Jin Tao, Hu Xiewen, Fu Jiankang, and Mei Xuefeng</i>
17:00-17:15	37. Consequences of rockfall hazard in the Imja Glacial Lake	Durga Khatiwada and <i>Ranjan Kumar Dahal</i>
17:15-17:30	38. Rock fall run out analysis: Batu Caves, Selangor, Malaysia	Goh Thian Lai , <i>Allie Sofyiana Serasa, Abdul Ghani Md Rafek, Norbert Simon, and Tuan Rusli Mohammed</i>
17:30-18:00	Break for Welcome Reception Preparation	
18:00-21:00	Welcome Reception – Madhuban Garden, Hotel Yak and Yeti	

Technical Session VII: The 2015 Gorkha Earthquake**Chairperson:** Prof. Dr. Ricardo Oliveira**Co-Chairperson:** Ms. Monika Jha**Rapporteurs:** Mr. Sanjiv Regmi and Mr. Balaram Upadhayay**Hall - Crystal**

Time	Title of Papers	Authors
14:00-14:25	39. If Poorly Constructed Buildings are the Major Source of Earthquake Risk, Fix the Buildings: Lessons Learned from Nepal's Gorkha Earthquake Sequence of 2015 <i>(Invited Lecture)</i>	Amod Mani Dixit
14:25-14:40	40. Geomorphological disturbance and damage resulting from the April-May 2015 earthquake sequence in Solukhumbu District (Nepal)	Monique Fort, Narendra Raj Khanal, Buddhi Raj Shrestha, and Joëlle Smadja
14:40-14:55	41. Implications for development along the Bhote Koshi River corridor, Nepal-China border area, from mass-wasting induced by the 2015 Gorkha earthquake	Ren-mao Yuan, Guo Wu, Xinfu Zeng, Dickson Cunningham, Qing Zhou, and Xiao-ping Yang
14:55-15:10	42. Distribution of earthquake triggered landslides by the 2015 Gorkha -earthquake in the Nepal Himalaya	Kaushal Raj Gnyawali and Basanta Raj Adhikari
15:10-15:25	43. Landslides triggered by the Gorkha, Nepal Mw 7.8 earthquake of 25 April 2015: A comparison with the 2008 Wenchuan, China Mw7.9 event	Chong Xu, and Yingying Tian, Lingling Shen, Xueqiang Huang, Junxue Ma, Xi Chen, Siyuan Ma, Xiwei Xu
15:25-15:40	44. Landslides Triggered by the 2015 Gorkha Earthquake and Analysis of Their Long-Lasting Impact	Hikaru Tomita, Alessandra Mayumi Nakata, Kazuo Konagai, Masataka Shiga, Takashi Matsushima, Takaaki Ikeda and Rama Mohan Pokhrel
15:40-15:55	45. Geotechnical Discussion on the Localized Deformation in Kausalter Caused by the Gorkha Earthquake, 2015	Masataka Shiga, Kazuo Konagai¹, Rama Mohan Pokhrel, and Takaaki Ikeda
15:55-16:15	Tea Break	

Technical Session VIII: The 2015 Gorkha Earthquake**Chairperson:** Prof Dr. Masahiro Chigira**Co-Chairperson:** Mr. Sudhir Rajaure**Rapporteurs:** Mr. Dilendra Pathak and Mr. Mahesh Khanal

Hall - Crystal		
Time	Title of Papers	Authors
16:15-16:30	46. National Seismic network in the aftermath of the devastating 2015 Gorkha earthquake	Lok Bijaya Adhikari , Bharat Koirala, Mukunda Bhattarai, Thakur Kandel, Ratna Mani Gupta, Chintan Timsina, Tirtaraj Dahal, Kapil Maharjan, Eric Sauvage, Corentin Quedec, Jean-Baptiste Leblanc, and Laurent Bollinger
16:30-16:45	47. Nepal Earthquake 25 April 2015: Hydro Projects Damaged, Risks and Lessons Learned for Design Considerations	Subas Chandra Sunuwar
16:45-17:00	48. An approach to assessing the affordability of landslide risk management strategies for communities affected by the 2015 Gorkha Earthquake in Nepal	Stephen Revill , Tara Nidhi Bhattarai, Megh Raj Dhital, Kishor Acharya, Lekh Prasad Bhatta
17:00-17:15	49. Deterministic seismic hazard assessment made in 2013 for Budhi Gandaki dam, Nepal, and its comparison with the 2015 earthquakes	Julien Rey , Cécile Allanic, Marie L'Hostis, Laurent Bollinger, Thierry Winter, and Myriam Belvaux
17:15-17:30	50. Understanding Landscape Response to the 2015-Gorkha Earthquake in the Northwestern Part of Gorkha District (west of the main epicenter) for Geohazard Mitigation and Safer Reconstruction	Danda Pani Adhikari
17:30-18:00	Break for Preparation	
18:00-21:00	Welcome Reception – Madhuban Garden, Hotel Yak and Yeti	

8.4 Day 1 - Poster Session - 1

All postal presenters need to place their poster in the Regal 2 Hall, before 14:00 hours of 28th November. Acceptable poster size is only A0. The Poster Session starts from 14:00-17:00. Tea, coffee and snacks will be served inside the hall during poster session. Please remove poster/s after 17:00 hours. The organizer will remove it after 17:30.

Time: 14:00-17:00

Hall – Regal 2

Poster No.	Title of Papers	Authors
Themes: Engineering Geology of Landslides		
1.	Landslide susceptibility mapping along central part of the Badi Gad Fault-an active fault of the Lesser Himalaya in Juhan-Shantipur area of Gulmi district, west-central Nepal	Sunil Bikram Thakuri <i>and Kabi Raj Paudyal</i>
2.	Engineering Geology of Old Rock Topple-Wedge Slide, Malekhu Area, Central Nepal Lesser Himalaya	Mahesh Raut and <i>Naresh Kazi Tamrakar</i>
3.	A case study on In-situ Shear Strength Measurement of Topsoil and Hazard Evaluation of Shallow Landslides using Soil Strength Probe	Satoru Norimizu, <i>Tetsuo Kanai, Ken-ichi Asai¹, Yoshinori Yajima and Yasuhito Sasaki</i>
4.	Distribution map of landslides triggered by the 2015 Gorkha earthquake, Nepal	Ching-Ying Tsou, <i>Masahiro Chigira, Daisuke Higaki, Hiroshi Yagi, Vishnu Dangol, Shanmukhesh Amatya, Kazunori Hayashi, and Hiroki Kato</i>
5.	Analysis of Two Different Landslides Concern on Mitigation Design and Cost Estimation Based on Ground Condition and Mechanism of Chure Region, Kailali District	Gaurab Singh Thapa, <i>Subodh Dhakal and Suman Panday</i>
6.	Landslide Susceptibility Assessment of the Chure Khola Catchment area of the, Siwalik Region Central Nepal	Prakash Gyawali and <i>Naresh Kazi Tamrakar</i>
7.	Comparison of Information Value and Weight of Evidence Models in Landslide Hazard Assessment in Chure Region: A Case from Surkhet	Radhika Maharjan, <i>Subodh Dhakal and Niraj Bal Tamang</i>
8.	Dissection rate of landslide topography in Japan	Daisuke Kanbara, <i>Shuichi Hasegawa,</i>

		<i>and Makoto Yanagida</i>
9.	Hydrological Impacts on Mechanism of Mass Wasting in Sub-Himalayan Region with Spatial Reference to Rock and Soil Condition	Suman Panday and <i>Subodh Dhakal</i>
10.	Recognition of Earthquake Induced Landslide in Khurkot Area, Central Nepal	Deepak Ghimire , <i>Jyoti Khatiwoda, Suresh Adhikari, Nabin Sapkota, Aditya Dhungana, Ranjan Kumar Dahal, and Suman Manandhar</i>
11.	Dormant landslides distributed in upper course of Sun Kosi watershed and landslides induced by Nepal Gorkha Earthquake 2015	Hiroshi Yagi , <i>Kazunari Hayashi, Daisuke Higaki, Ching-Ying Tsuo and Go Sato</i>
12.	The Clarence landslide triggered by the 2016 Mw7.8 Kaikoura earthquake, New Zealand	Peng Guo , <i>Ren-mao Yuan, Zhu-jun Han, and Hong-liu Ran</i>
13.	Co-seismic large Lateral Earth Slide associated with the 2016 Kumamoto Earthquake Mw7.0 revealed from Differential LiDAR DEM Image Analysis	Sakae Mukoyama and <i>Tomoyuki Takami</i>
14.	Typology of Landslides caused by 2016 Kumamoto Earthquake in Japan	Tomoyuki Takami and <i>Takashi Inokuchi</i>
15.	Infinite slope stability analysis based on time distribution of rainfall in Ulleung-do, Korea	Seong-Woo Moon and <i>Yong-Seok Seo</i>
16.	Assessment on Failure of the Road Along BP Highway at Shitalpati, Sindhuli, Central Nepal	Arun Dhoj Adhikari , <i>Birat Shrestha, Nabin B.K., Roman Gantawa, Ranjan Kumar Dahal and Suman Manandhar</i>
17.	Landslide countermeasure and maintenance of slope surface of highway adjacent to the Median Tectonic Line	Hironobu Itoh , <i>Junji Uchida, Kohei Minami, Shinji Sakai and Yuhei Nishikawa</i>
18.	National-wide shallow landslide early warning system in Taiwan: modeling, assessment, and validation	Ching-Fang Lee , <i>Cheng-Lung Chiu, and Li-Yuan Fei</i>

Theme: Neotectonics		
19.	Fault trace investigation of the blind segment of the Sanyi fault, Central Taiwan	I-Chin Yen, Yueh-luan Ko, Yen-Chyun Liu, Jin-Wei Hsu, Shih-Ting Lu, Wen-Jeng Lee, and Piao Lee
20.	Relationship between Earthquake Distribution Characteristic and Present-day Tectonic Stress Magnitudes around the Korean Peninsula	Inho Soh and Chandong Chang
21.	Characteristics of the Chekualin Fault in the Yanchao Area, Southern Taiwan	Chuan Ding, Chengchou Lee, and Shuiken Ho
22.	Mapping and characterization of Badi Gad Fault, an active strike-slip fault of the Lesser Himalaya, on the basis of petrological and microstructural studies in Ridi-Shantipur area of Gulmi district, west-central Nepal	Manish Singh Chaudhary and Kabi Raj Paudyal
23.	The Study on the Shear Zone of Plane less Fault, in Neogene Sedimentary Beds in Miura Peninsula, South of Tokyo	Takao Chaishi and Toru Arai
24.	Geological and engineering geological study of Imja Glacial Lake and its adjoint area, eastern Nepal	Keshav Jaisi and Kabiraj Paudyal
25.	Investigation of liquefaction susceptibility at different shaking level in Kathmandu valley	Deepak Thapa and Narayan Parsad Marasini
Theme: The 2015 Gorkha Earthquake		
26.	Landsliding distribution relative to the 2015 Mw7.8 Gorkha Earthquake, Nepal	Marin Clark, Dimitrios. Zekkos, Kevin Roback William Medwedeff, William Greenwood, A. Joshua West, Deepak Chamlagain, and Bibek Giri
27.	An Approach of Preparing Earthquake Induced Landslide Hazard Map: A Case Study of Kakani Rural Municipality, Nuwakot District, Central Nepal	Harish Dangi and Tara Nidhi Bhattarai
28.	Source mechanism of 2015 Gorkha Earthquake and its	Kiran Pandey, Navin Thapa and Subesh

	biggest aftershock	<i>Ghimire</i>
29.	Frequency Dependent Deformation Pattern in Kathmandu Valley Due to 2015, Mw 7.8, Gorkha Earthquake	Navin Thapa, Kiran Pandey, Kamala Kant Acharya, and Subesh Ghimire
30.	Lessons about landslides and debris flows in the Nepal Himalaya from the 2015 Gorkha earthquake and following monsoons	A. Joshua West, Paul Quackenbush, Max Dahlquist, Julie Martinez, Marin Clark, Dimitrios. Zekkos, Deepak Chamlagain, and Bibek Giri
Theme: Engineering Geology in sustainable development and urban planning		
31.	Geoenvironmental vulnerability to exogenous geohazards upon risk assessment and mapping	Irina Kozliakova, Olga Eremina, Pavel Ivanov, and Maria Komarevskaya
32.	Mapping geological risk upon the underground linear construction in megacities	Irina Kozlyakova, Nadezhda Anisimova, Olga Eremina, and Oleg Mironov
33.	Approaches to assessment of the projected tunnel impact on waterlogging and groundwater contamination	Irina Galitskaya and Leonid Toms
34.	A calibration test of karst sinkhole collapse monitoring device by optical time domain reflectometry (Botdr) technique	Guan Zhen-de and Jiang Xiao-zhen
Theme: Engineering geology and geodisaster management		
35.	Study on the deformation structure developed in a gravel layer by fault movement based on model experiments	Shiro Tanaka
36.	The study on the mechanism of hydraulic Fracturing in cohesive zone of embankment dam cores (Literature Review)	Samjhana Poudel, Samson Nagambi, and Adegoke Olubanwo
37.	Methodical approaches to the assessment of natural risks in urban areas	Valentina Burova

The 11th Asian Regional Conference of IAEG

November 28–30, 2017, Kathmandu, Nepal

9 Conference Day 2: 29th November**9.1 Day 2 – Keynote Presentation Session - 2****Chairperson:** *Prof. Dr. Scott Burns***Co-Chairperson:** *Mr. Lila Nath Rimal***Rapporteurs:** *Mr. Dev Kumar Shangboo and Mr. Ishwor Thapa***Hall – Regal 1**

Time	Title of Papers	Authors
Keynote Lectures		
9:00-9:30	4. Managing geological situations at hydropower projects in Himalayas	<i>Gopal Dhawan</i>
9:30-10:00	5. Himalayan geological setting and status of engineering geological research and education in Nepal.	<i>Lalu Prasad Poudel</i>
10:00-10:30	6. Statistic-Mechanical model of Rock Mass and its applications	<i>Faquan Wu</i>
10:30-11:00	Tea Break	

9.2 Day 2 – Keynote Presentation Session - 3**Chairperson:** *Prof. Dr. Shuichi Hasegawa***Co-Chairperson:** *Dr. Ananta Prasad Gajurel***Rapporteurs:** *Ms. Tara Pokharel and Mr. Manoj Khatiwada*

11:00-11:30	7. Challenges for operational forecasting and early warning of rainfall induced landslides	<i>Fausto Guzzetti</i>
11:30-12:00	8. Seismotectonics and seismic hazard potential of Northwest Himalaya	<i>Prabhas Pande</i>
12:30-13:00	9. Engineering geological approaches adopted in reconstruction and relocation of the damaged settlements in the aftermath of 2015 Gorkha Earthquake	<i>Tara Nidhi Bhattarai, Stephen Richard Reville, and Kamal Ghimire</i>
13:00-13:10	Introduction to 36th International Geological	<i>36thIGC Secretariat,</i>

	Congress jointly organized by South Asian countries	India
13:10-14:00	Lunch break – Lunch at Madhuban Garden, Hotel Yak and Yeti	

9.3 Special Lecture

Chairperson: *Dr. Ganesh Nath Tripathi*

Co-Chairperson: *Dr. Rama Mohan Pokhrel*

Rapporteurs: *Mr. Milan Magar and Mr. Prakash Pokhrel*

Hall - Regal 1

Time	Title of Program
16:15-17:30	Special Lecture on “How to write Scientific Papers?”
Lecturer	<i>Prof. Dr. Martin G. Culshaw</i> - Chief Editor of <i>Bulletin of Engineering Geology and Environment</i>

9.4 Invited Lectures

Chairperson: *Dr. Haris Saroglou*

Co-Chairperson: *Dr. Krishna Devkota*

Rapporteurs: *Mrs. Sunita Bhattarai and Mr. Rajendra Acharya*

Hall - Regency

Time	Title of Papers	Authors
16:15-16:40	51. Hunting for the Traces of Great Himalayan Earthquakes: Lidar Imaging of Nepal's Frontal Thrust's Seismic History	<i>Soma Nath Sapkota, Paul Tapponnier, Çağıl Karakaş, Paramesh Banerjee, Aurelie Coudurier Curveur, Sorvigenaleon Ildefonso, and Santosh Dhakal</i>
16:40-17:05	52. Arrabida Natural Park, Setubal, Portugal - Stabilization of Cliffs over the Road EN 379-1	<i>Ricardo Oliveira</i>
17:05-17:30	53. Characteristics of landslides in Nepal and their hazard evaluation	<i>Prem Bahadur Thapa</i>

9.5 Day 2 - Parallel Technical Sessions

Technical Session IX: Engineering Geology of Landslides – Monitoring and Early Warning System

Chairperson: *Prof. Dr. Martin Gordon Culshaw*

Co-Chairperson: *Dr. Basanta Adhikari*

Rapporteurs: *Mr. Arjun Bhattarai and Mr. Mahesh Raut*

Hall – Regal 1

Time	Title of Papers	Authors
14:00-14:15	54. LANDSLIDE Multi-Hazard Risk Assessment, Preparedness and Early Warning in South Asia: Integrating Meteorology, Landscape and Society (LANDSLIP)	Helen Reeves, Bruce Malamud, and LANDSLIP Consortium
14:15-14:30	55. A complete watershed monitoring system in ShengMu village, Taiwan	Ko-Fei Liu and Shi-Shao Wei
14:30-14:45	56. The use of remotely piloted aircraft systems for characterization and monitoring of landslides	Daniele Giordan, Giorgio Lollino, Paolo Allasia, Marco Baldo, and Aleksandra Wrzesniak
14:45-15:00	57. Application of Advanced Japanese Practices of 3D Scanning and Monitoring Technologies to National Restoration and Preservation Projects in Kathmandu Valley.	Proshchanka Dzianis
15:00-15:15	58. Landslide EVO: An Interdisciplinary Citizen Science Research Project to Build Local Resilience Against Hydrologically Induced Landslides and Floods in Mountain Regions of Nepal	Madhab Uprety, Sumit Dugar, Jonathan D. Paul, Wouter Buytaert, Megh Raj Dhital, Puja Shakya, Bharat Raj Pant, Amrit Dhakal and the Landslide EVO Team
15:15-15:30	59. Integrated monitoring system for landslides impacting linear infrastructures: the case of the Pietrafitta earth flow (Southern Italy)	Paola Revellino, Luigi Guerriero, Gerardo Grelle, Neri Mascellaro and Francesco M. Guadagno
15:30-15:45	60. A comprehensive monitoring information system for landslide based on three-dimensional visualization and network	Xie Mowen, Jia Yanchang, and Du Yan
15:45-16:00	61. Surface deformation monitoring and potential landslides detection in Loess area based on UAV	Qiang Xu, Yuanzhen Ju, Dalei Peng, Xiujun Dong, and Xing Qi

16:00-16:15	Tea Break
-------------	-----------

Technical Session X: Engineering Geology of Landslides – Landslide Mechanism

Chairperson: *Dr. Fausto Guzzetti*

Co-Chairperson: Mr. Narayan Gopal Ghimire

Rapporteurs: *Mr. Vaskar Khatiwada and Ujjwal Maskey*

Hall - Regency		
Time	Title of Papers	Authors
14:00-14:15	62. The evolution of Kimmantung Cliff	<i>Keng-Hao Kang, Ming-Wan Huang, Shun-Hsing Yang, Yii-Wen Pan and Jyh-Jong Liao</i>
14:15-14:30	63. Study on coarse soil of Chenjiaba Landslide by Ring-Shear test	<i>Lina Ma and Shengwen Qi</i>
14:30-14:45	64. Deep-seated gravitational slope deformations in central Japan: their topographic features, development history, and relationship with the geologic structures	<i>Satoru Kojima and Hidehisa Nagata</i>
14:45-15:00	65. Geomorphic Investigation of the Western part of the Chitwan Intermontane Valley, Central Himalayas.	<i>Gyanendra Gaire</i>
15:00-15:15	66. Slope stability in an expansive clay deposit from Regina, Saskatchewan, Canada	<i>Rashedul H. Chowdhury and Shahid Azam</i>
15:15-15:30	67. Physical model experimental study of bank Collapse in Three Gorges Reservoir area under water level change condition	<i>Shuai Teng, Shimei Wang, Wenpeng Yu, and Peng Lu</i>
15:30-15:45	68. Predictions of saturation process on partially desaturated soil	<i>Narayan Prasad Marasini and Mitsu Okamura</i>
15:45-16:15	Tea Break	

Technical Session XI: Engineering Geology and Geodisaster Management, Engineering Geology of Landslide - Mechanism

Chairperson: Prof. Dr. Tara Nidhi Bhattarai

Co-Chairperson: Ms. Shova Singh

Rapporteurs: Mr. Niraj Bal Tamang and Mr. Santosh Adhikari

Hall - Dynasty		
Time	Title of Papers	Authors
14:00-14:15	69. Estimation of Strong Ground Motion in Yogyakarta, Indonesia by Stochastic Green's Function Method	Nwai Le Ngal, Junji Kiyono, Subagyo Pramumijoyo, Iman Satyarno, Kirbani and Sri Brotopuspito
14:15-14:30	70. Research on the characteristics and instability mechanism of K3 altered basic rock slope in Lushi highway	Xiaoyan Zhao and Xun Li
14:30-14:45	71. Rock mass property evaluation based on borehole wall images by an ultrasonic scanner (USS) at Horonobe Underground Research Laboratory, Japan	Yasunori Otsuka, T. Ishikawa, K. Tajima, T. Wada, Ö. Aydan, N. Tokashiki, T. Sato, and K. Aoyagi
14:45-15:00	72. Mechanical Characterization of Rock Materials with reference to Assigned Weathering Grades: Problems and Promises	Arindam Basu
15:00-15:15	73. Early-warning for pilling-induced sinkhole in Xiamao village of Guangzhou city, China	Yan Meng, Long Jia, and Mingtan Lei
15:15-15:30	74. An attempt to predict ground motion using scenario earthquakes	Sudhir Rajaure
15:30-15:45	75. Geological investigation of karst terrain and geophysical detection of underground cavities in the Kusma-Baglung area, west Nepal	Lalu Prasad Paudel, Sudip Lamsal, Krishna Prasad Subedi, Nabaraj Sapkota, Arjun Bhandari, Ishor Gyanwali, Umesh Chandra Bhusal, Sudhir Rajaure, Kabi Raj Paudyal, Basanta Raj Adhakari
15:45-16:15	Tea Break	

Technical Session XII: Engineering Geology of Landslides – Hazard and SusceptibilityChairperson: *Dr. Helen Reeves*Co-Chairperson: *Mr. Tika Ram Paudel*Rapporteurs: *Mr. Madan Raj Pokhrel and Ms. Alina Karki*

Hall - Dynasty		
Time	Title of Papers	Authors
16:15-16:30	76. FEM-based Stability Analysis of Jure Landslide Slope in Nepal	Netra P. Bhandary, Ram C. Tiwari, Ryuichi Yatabe, Sanjay K. Jha, and Nijjal Shrestha
16:30-16:45	77. Landslide Hazard Mapping using Limit Equilibrium Method with GIS Application of Roadway Traversing Mountain Slopes: The case of Kitaotao Bukidnon, Philippines	Ma. Catherine Q. Arca, Glen A. Lorenzo
16:45-17:00	78. Landslide Susceptibility Zonation in Sidamukti, Majalengka, West Java	Rachma Nurul Ajrina, Qhonita Anif Febian, Ilham Prasetya
17:00-17:15	79. Case study on rock slide susceptibility due to tunnel excavation	Yuzo Ota

Technical Session XIII: Landslide disasters and Landslide mitigationChairperson: *Prof. Dr. Monique Fort*Co-Chairperson: *Mr. Prakash Chandra Ghimire*Rapporteurs: *Mr. Kumar Timalsina and Mr. Hari Ghimire*

Hall - Crystal		
Time	Title of Papers	Authors
14:00-14:15	80. Residual-state Shear Creep Tests in a Modified Ring Shear Machine and Numerical Modeling for Failure Prediction	Netra Prakash Bhandary, and Ryuichi Yatabe
14:15-14:30	81. Horizontal Drilling Drainage as a Preventive Measure for Water Induced Landslide Risk Reduction: A case study from Sindhuli Road Section I, Nepal	Shanmukhesh Chandra Amatya and Mikihiro Mori
14:30-14:45	82. Experimental investigation of sediment resuspension and redeposition process by shoaling internal solitary waves on uniform slope	Tian Zhuangcai, Guo Xiujun, Jia Yonggang, and Yu Le

14:45-15:00	83. Empirical models for predicting the spatial variation of soil thickness and shear strength for landslide susceptibility assessment	Cheryl F. Daleon and Glen A. Lorenzo
15:00-15:15	84. LEM analysis and mitigation suggestions of Rangvamual landslide along NH-54, Aizawl, North- East India	Laldinpuia
15:15-15:30	85. Settlement of piles subjected to collapse of retaining wall	Rajesh Prasad Shukla
15:30-15:45	86. Towards a chemo-mechanical approach to landslide stabilization	Gianvito Scaringi, Caterina Di Maio, Xuanmei Fan, Dario M. Pontolillo, Jacopo De Rosa, and Qiang Xu
15:45-16:15	Tea Break	

Technical Session XIV: Engineering Geology of Landslides – Landslide Mechanism

Chairperson: *Dr. Xie Mowen*

Co-Chairperson: *Mr. Dinesh Kumar Napit*

Rapporteurs: *Mr. Sovit Thapaliya and Mr. Pramod Simkhada*

Hall – Crystal

Time	Title of Papers	Authors
16:15-16:30	87. Understanding the potential severity of large landslide events through computational modelling	Vincent Lemiale, Ha Bui, Shaohan Zhao, Laura Karantgis, Philip Broadbridge and Deepak Adhikary
16:30-16:45	88. Experimental research on the characteristic of seepage coupled with creep of landslide soil around reservoirs	Yu Wenpeng, Wang Shimei, Hu Qiufen, Teng Shuai, and Lu Peng
16:45-17:00	89. Experiment of sudden initiation triggered by shearing vibration for locked segment of Wangjiayan Landslide	Hu Kai, and Zhao Xiaoyan
17:00-17:15	90. Effect of Weak Plane Orientation on Rock Slope Stability	Yi-Ling Lin, Po-Tsun Yeh, and Kuang-Tsung Chang

9.6 Day 2 - Poster Session - 2

All postal presenters need to place their poster in the Regal 2 Hall, before 14:00 hours of 29th November. Acceptable poster size is only A0. The Poster Session starts from 14:00-17:00 PM. Tea, coffee and snacks will be served inside the hall during poster session. Please remove poster/s after 17:00. The organizer will remove it after 17:30.

Time: 14:00-17:00

Hall - Regal 2

Poster No.	Title of Papers	Authors
Themes: Engineering Geology of Landslides		
38.	Landslide Susceptibility Zonation Using Analytical Hierarchy Process (AHP) in Dharamshala Region, Himachal Pradesh	Swati Sharma and A.K. Mahajan
39.	Engineering geomorphological characteristics of the glacial lake outburst flood induced catastrophic creeping landslide: Ikhu landslide in Central Nepal	Kaushal Raj Gnyawali, Basanta Raj Adhikari, Kristen Cook, and Bibek Giri
40.	Rock slope stability analysis along KM-34 – KM - 45 in Tawaeli-Toboli area, Central Sulawesi, Indonesia	Urwatul Wusqa and Imam Achmad Sadisun
41.	Depositional environment and directional movement of debris flow sediments of Ratmate area, Sindhuli, central Nepal	Milan Kumar Rai, Nitesh Subedi, Prakash Khanal, Sanjay Rizal, Ranjan Kumar Dahal and Suman Manandhar
Theme: Foundation, tunnel, underground geology, groundwater		
42.	Analysis of ground deformation in Sanshandao gold mine based on GPS	Ma Fengshan, Gu Hongyu , Guo Jie, and Lu Rong
43.	Exploration of groundwater resources using Schlumberger arrangement of electrical resistivity survey in Pokhara-Lekhnath Metropolitan City, Kaski district, Nepal	Hari Ghimire, Umesh Chandra Bhusal, Rajendra Prasad Bhandari, Bhaskar Khatiwada, Damu Pandey, Shiva Amatya and Mohamed Abdul Kadar Prabhu
44.	Spatial Variability of Shallow Groundwater Level in the Northern Kathmandu Valley	Manish Shrestha and Naresh Kazi Tamrakar

45.	Geological core drilling on the foothills of the Himalayas. Issues, challenges and measures taken while drilling through the gravel/boulder layers.	Om Prasad Dhakal, Manita Timilsina, and Ranjan Kumar Dahal
46.	Elements of hypogene origin in the karst caves of the Urals (Russia)	Olga Kadebskaya, Valerii Kataev, Nikolay Maksimovich, and Olga Meshcheriakova
47.	Climatic investigation using short ice cores from Kazbek and Elbrus	A. Khairedinova
48.	Formation process of Shigenobu Basin and the mechanism of groundwater flow	Tomoaki Kayaki and Seisuke Miyazaki
49.	Optimum support estimation in proposed Middle Trishuli Ganga Hydroelectric Project, Rasuwa and Nuwakot	Ujjwal Acharya, Khagendra Dahal, Kamala Kant Acharya, Sunil Kumar Dwivedi and Subesh Ghimire
Theme: New Technology		
50.	Development of Technology for Long-term Monitoring and Automatic Data Acquisition System	Akira Shidai, Kenzo Kiho, Yasuji Saito, and Tomohiro Kawakami
51.	Hydrogeochemical criterion as applied for mapping hydrogeological windows	Irina Galitskaya, Irina Kostikova, Irina Pozdnyakova, and Leonid Toms
52.	Construction of a geological information CIM Management System and application to construction sites	Shinji Utsuki, Masashi Nakaya, Ryosuke Tsuruta, and Kazuhiro Onuma
Theme: Landslide disasters and Landslide mitigation		
53.	Geomorphological and geochemical approaches to clarify sediment distribution in mountain stream area, northern Kyushu, Japan	Hiro Ikemi, Ryunosuke Nakanishi, Hendra Pachri, Yasuhiro Mitani, and Yuki Okajima
Theme: Engineering geology of mines and quarry sites		
54.	Deformation and failure analysis of surrounding rock basing on borehole stress measurements and numerical simulations	Qinghong Dong, Kun Song, and Wenhao Li
55.	Steep slope stability analysis of open rock quarries	Murat Yilmaz, Altay Ertin,

	in Istanbul, Turkey	<i>Selman Er and Atiye Tuğrul</i>
56.	Assessment of Brittleness Index of Magmatic Rocks	Atiye Tuğrul, Selman Er, Sinem Erişiş, and Murat Yılmaz
Theme: Integrated engineering geology in infrastructural development for stability and sustainability		
57.	Geological challenges of road construction in Trishuli Valley between Syafrubensi-and Betrawati, Lesser Himalaya, Central Nepal	Akash Acharya and Megh Raj Dhital
58.	Assessing the proposed Khurkot-Manthali tunnel alignment along Sindhuli-Ramechhap districts, central Nepal	Harichandra Budhathoki, Pushp Raj Bhatta, Kabita Maharjan, Ajaya Chapagain, Shankar Pantha, Ranjan Kumar Dahal and Suman Manandhar
59.	Problems of control and reduction of inflow of water to road deep-level tunnel (Russia, Moscow)	I.A. Kostikova, Batrak G.I., Pozdnyakova I.A., Galitskaya I.V., and Toms L.S
Theme: Case studies for geohazard management		
60.	From seismic hazard assessment to seismic risk prevention in the island of Hispaniola	Myriam Belvaux, Didier Bertil, Monique Terrier, Nicolas Taillefer, and Jean-Philippe Rançon
61.	Assessment of Debris flow deposits around Palung Valley, Makwanpur district	Arishma Gadtaula, Rabina Hada, and Pushkar Bhandary
62.	Slope failure assessment by kinematic analysis in Kulekhani Watershed	Badal Pokharel, Shila Bhattarai Krishna Pudasaini and Prem Bahadur Thapa
63.	Depth susceptible to the internal erosion on the basis of grain size analysis of the sediment deposited along the sinkhole affected Armala area, Kaski District Nepal	Basant Bhandari, Jivan Bhusal, Ramamohan Pokharel, and Lalu Prasad Paudel
64.	Flood Hazard Analysis along Bhusghat Khola, Gharti Khola and Shankhamul Khola in Palung Valley, Makwanpur District, Nepal	Sharmila Neupane, Sanjeeta Pandit, Bhuvan Panday and Prem Bahadur Thapa

65.	Study on Gross Streambank Sediment Erosion from the Godavari Khola, Southeast Kathmandu Valley, Central Nepal	<i>Ujwal Kumar Maskey and Naresh Kazi Tamrakar</i>
<i>Theme: Rockfall hazard and its mitigation</i>		
66.	Rock fall hazard mapping in Siddhababa area of Siddhartha Highway, western Nepal	<i>Chhabilal Pokhrel, Ishwor Adhikari, and Ranjan Kumar Dahal</i>
<i>Theme: Engineering Geology in sustainable development and urban planning</i>		
67.	Spatial Distribution Characteristics of Major Elements in Water Sources in Kathmandu Valley of Nepal	<i>Fumitake Nishimura, Netra Prakash Bhandary, Ryuichi Yatabe, and Junko Nakajima</i>
<i>Theme: Response and reaction of earth materials to natural phenomena</i>		
68.	Evolution of Weathering Characteristics According to Weathering Grade of Granites in Sejong, Korea	<i>Ik Woo and Jeong Gi Um</i>
69.	Study on the Geochemical Characteristics and Weathering Behaviors of Black Shale	<i>Xin Liao, Xiyong Wu, Qingfeng Wang, Sixiang Ling, and Chunwei Sun</i>

The 11th Asian Regional Conference of IAEG

November 28–30, 2017, Kathmandu, Nepal

10 Conference Day 3: 30th November**10.1 Day 3 - Keynote Presentation Session - 4****Chairperson:** *Dr. Pitambar Gautam***Co-Chairperson:** *Mr. Andy Prakash Bhatta***Rapporteurs:** *Mr. Bishow Raj Silwal and Mr. Madhab Lamsal***Hall - Regal 1**

Time	Title of Papers	Authors
Keynote Lectures		
9:00-9:30	10. Paleoseismic Studies of the Gatún, Limón, and Pedro Miguel Faults for Seismic Hazard Input to the Panama Canal Expansion in Central America	<i>Eldon Gath</i>
9:30-10:00	11. Failure prediction of landslide dam and motion simulation of landslide	<i>Fawu Wang</i>
10:00-10:30	12. Engineering Geology in Active Mountain Belts	<i>Shuichi Hasegawa</i>
10:30-11:00	13. Multi-temporal interferometry and high-resolution radar satellite data enable long-term slope monitoring and capturing of pre-failure signs of instability	<i>Janusz Wasowski, Fabio Bovenga, Raffaele Nutricato, Davide Oscar Nitti, and Maria Teresa Chiaradia</i>
11:00-11:30	Tea Break	

10.2 Day 3 - Parallel Technical Sessions**Technical Session XV: Engineering Geology of Landslides - Earthquake Induced Landslide****Chairperson:** *Prof. Dr. R. Nagarajan***Co-Chairperson:** *Dr. Subodh Dhakal***Rapporteurs:** *Mr. Chitra Bikram Tandon and Mr. Champak Babu Silwal***Hall - Regal 1**

Time	Title of Papers	Authors
11:30-11:45	91. Spatio-temporal evolution of geohazards after the 2008 Wenchuan earthquake	<i>Xuanmei Fan, Lanxin Dai, Qing Yang, Runqiu Huang</i>

		<i>and Tristram Hales</i>
11:45-12:00	92. Landslides induced by seismic events: An overview in France and Europe.	<i>Gilles Grandjean, Rosalie Vandromme, Séverine Bernardie, Olivier Sedan, and Myriam Belvaux</i>
12:00-12:15	93. Slope deformation problem by earthquakes – A case study in the 2016 Kumamoto Earthquake site.	<i>Yasuhito Sasaki, Ken-ichi Asai, and Yoshinori Yajima</i>
12:15-12:30	94. The Main Causes and Damages Associated with the Deadliest Landslides During June-July, 2015 in the South-Eastern Part of Bangladesh	<i>Animesh Talukder and Anwar Saadat Mohammad Sayem</i>
12:30-12:45	95. Landslides triggered by the 2008 Wenchuan Earthquake: temporal evolution of the frequency-size distribution	<i>Guillem Domènech, Xuanmei Fan, Lanxin Dai, and Qin Yang</i>
12:45-13:00	96. Building a More Resilient Nepal -The Utilisation of the Resilience Scorecard for Kathmandu, Nepal following the Gorkha Earthquake of 2015.	<i>Michael R.Z. Whitworth, Mathew Francis, Shaun Hubbard, and Judy Mitrani-Reiser</i>
13:00-14:00	Lunch Break – Lunch at Madhuban Garden, Hotel Yak and Yeti	

Technical Session XVI: Engineering Geology of Landslides – Hazard and Susceptibility

Chairperson: *Dr. Prem Bahadur Thapa*

Co-Chairperson: *Mr. Santosh Dhakal*

Rapporteurs: *Mr. Sujan Devkota and Mr. Umesh Bhusal*

Hall – Regal 1		
Time	Title of Papers	Authors
14:00-14:15	97. Landslide Mapping, Characterization and Mitigation in the Sub Himalaya of Nepal	<i>Subodh Dhakal, Suman Pandey, Niraj Bal Tamang, Kumod Raj Lekhak, Shanta Bastola, Padam Budha, Bijaya Maharjan, Gaurab Singh Thapa</i>
14:15-14:30	98. Kinematics of some Typical Rock slides in Himalayas	<i>Vinod Kumar Sharma</i>
14:30-14:45	99. Probabilistic landslide hazard assessment of the Black Sea coastline of Russia	<i>Andrey Kazeev, German Postoev, Ksenia Fedotova</i>

14:45-15:00	100. Susceptibility Zoning of Complex Landslides in Lanzhou City using Logistic Regression Method	Baoping Wen, Shu Jiang, Yongjun Zhang, and Ruidong Li
15:00-15:15	101. Cross validation of event-based landslide susceptibility models at the Zengwen Reservoir catchment in southern Taiwan	Chyi-Tyi Lee and Chih-Chieh Fu
15:15-15:30	102. Landslide Susceptibility Mapping along the Road corridor from Bandeu to Barahabise, Araniko Highway, Sindhupalchwok District	Anu Khadka , Subodh Dhakal, Ajay Bhakta Mathema
15:30-15:45	103. Drainage density as rainfall induced landslides susceptibility index in small catchment area	Hirohisa Kinoshita, Shuich Hasegawa, Atsuko Nonomura, Shingi Nakai
15:45-16:00	104. Lumle Landslide of Kaski District: Causes, Characteristics and Lesson Learned	Narayan Adhikari and Gautam Khanal
16:00-16:15	Tea Break	

10.3 Field Excursion - Introductory Session

Coordinator: *Dr. Kamala Kant Acharya*

Rapporteurs: *Mr. Lekh Prasad Bhatta and Mr. Sunil Bikram Thakuri*

Hall - Regal 1

Time	Descriptions	Excursion Coordinators
16:15-16:25	Ex-2: Kathmandu-Pokhara roadside slope protection work and Pokhara Valley tour (three-day)	Ranjan Kumar Dahal
16:25-16:35	Ex-3: The 2015 Gorkha Earthquake Epicentre area visit (two-day)	Danda Pani Adhikari
16:35-16:45	Ex-4: Arniko Highway –China Border and observation of landslides, floods and slope protection works	Lila Nath Rimal
16:45-17:00	Ex-5: Japan Society of Engineering Geology (JSEG) Special Excursion (three days) - Gorkha and Pokhara Area including Kathmandu-Pokhara roadside slope mitigation	Shuichi Hasegawa

Technical Session XVII: Engineering Geology of Landslides – Rainfall induced landslides, Debris Flow, and Engineering geology in sustainable development and urban planning

Chairperson: *Mr. Subas Sunuwar*

Co-Chairperson: *Mr. Surendra Maharjan*

Rapporteurs: *Ms. Mamata Sayami and Mr. Shrawan Shakya*

Hall – Dynasty		
Time	Title of Papers	Authors
11:30-11:45	105. Rainfall induced landslides – west coast of India	<i>R. Nagarajan</i>
11:45-12:00	106. Runout distribution analysis of debris flow in the Southern Mountainous Region of Bandung, West Java, Indonesia	<i>Imam A. Sadisun, Rendy D. Kartiko, and Indra A. Dinata</i>
12:00-12:15	107. Climatic Variations and 2017 Short Term Rainfall Induced Rangamati Landslide Disasters, Chittagong Hills Tracts, Bangladesh.	<i>A.T.M.S. Hossain and A.A Mahadi</i>
12:15-12:30	108. Effects of antecedent rainfall and snow melt on the volume of earthquake-induced landslides associated with inland fault activities in Japan	<i>Taku Komatsubara</i>
12:30-12:45	109. Characteristics of Ground Vibration Signal Produced by Debris Flows at Ai-Yu-Zi Creek, Taiwan	<i>Shih-Chao Wei, Ko-Fei Liu, Yi-Min Huang, and Yao-Min Fang</i>
12:45-13:00		
13:00-14:00	Lunch Break – Lunch at Madhuban Garden, Hotel Yak and Yeti	

Technical Session XVIII: Engineering geology in sustainable development and urban planning and New Technology in Engineering Geology

Chairperson: *Dr. Janusz Wasowski*

Co-Chairperson: *Dr. Suman Panthi*

Rapporteurs: *Mr. Anuj Khanal and Ms. Jharana Khanal*

Hall – Dynasty		
Time	Title of Papers	Authors
14:00-14:15	110. Landslide Mapping Using GIS and	<i>Hiromisu Yamagishi, Kazuo Shimura, and</i>

	Related New Technology	Kenichi Saito
14:15-14:30	111. Geological investigation and monitoring of Ramhlun Sports Complex landslide, Aizawl, Mizoram, North- East India	Laldinpuia
14:30-14:45	112. Evaluation of sediment dynamics of mountain stream based on variation of sediment deposition	Ryunosuke Nakanishi, Yuki Okajima, Akira Baba, Yasuhiro Mitani, and Hiro Ikemi
14:45-15:00	113. Comparison of SPAC and CCA methods of analysis to estimate subsurface shear wave velocity structure using microtremor array measurements	Tara Pokharel, Toshiaki Yokoi, and Takumi Hayashida
15:00-15:15	114. Credible zone analysis for SAR data in valley area	Jiaxuan Huang, Mowen Xie, and Yan Du
15:15-15:30	115. Landslide Assessment along Ramche-Jharlan Area in Dhading, Rasuwa and Nuwakot districts, Lesser Himalaya, Central Nepal	Jharendra K.C., Purushottam Neupane, Deepak Gautam and Kabi Raj Paudyal
15:30-15:45	116. Engineering geomorphology of river basin in Central East Nepal	Ranjan Kumar Dahal and Suman Manandhar
15:45-16:15	Tea Break	

Technical Session XIX: Marine Engineering Geology and related geohazards

Chairperson: *Dr. Jianping Chen*

Co-Chairperson: *Dr. Ashok Sigdel*

Rapporteurs: *Mr. Madhab Lamsal and Mr. Kishor Acharya*

Hall - Dynasty		
Time	Title of Papers	Authors
16:15-16:30	117. The Superposed Sawtooth Model of Suspended Sediment Concentration in the Yellow River Subaqueous Delta Based on Observation	Chaoqi Zhu, and Yonggang Jia
16:30-16:45	118. Physical and mechanical properties of loess discharged from the Yellow River into the Bohai sea, China	Hong Zhang, Yonggang Jia, Xiaolei Liu, Chaoqi Zhu, and Hongxian Shan
16:45-17:00	119. In-situ observation of submarine landslide process in the Delta of Yellow	Yonggang Jia, Zhenhao Wang, and Xiaolei Liu

	River	
17:00-17:15	120. Contribution of wave-induced liquefaction in triggering hyperpycnal flows in Yellow River Estuary	Xiaolei Liu and Yonggang Jia

Technical Session XX: Engineering Geology and Geodisaster Management, Engineering geology of mines and quarry sites

Chairperson: Mr. Rajendra Prasad Khanal

Co-Chairperson: Mr. Aniruddha Paudel

Rapporteurs: Mr. Bishow Raj Silwal and Ms. Sanjeeta Mishra

Hall - Regency		
Time	Title of Papers	Authors
11:30-11:45	121. A Bibliometric Survey of Scientific Publications (1980-2017) on Natural Geological Hazards in Nepal	Pitambar Gautam and Ranjan Kumar Dahal
11:45-12:00	122. Climate Change, Natural hazards and Potential impacts on Infrastructure Development: focus on the dry, northern Himalayas (Mustang District, Nepal)	Monique Fort
12:00-12:15	123. Construction Practices in Rural Nepal without consideration of Engineering Geology	Narayan Gurung
12:15-12:30	124. A Preliminary Study on Classification of Urban Road Collapses and Prevention Measures	Yuanbin Wu, Weiquan Luo, Zongyuan Pan, and Renchao Yin
12:30-12:45	125. Accurate determination of the basic friction angle of rock using the tilt test	Hyun-Sic Jang and Bo-An Jang
12:45-13:00	126. Influence of Barton's JRC on Grout Propagation during Injecting into a Permeated Fracture	Wanghua Sui and Jialu Xiong
13:00-14:00	Lunch Break – Lunch at Madhuban Garden, Hotel Yak and Yeti	

Technical Session XXI: Engineering Geology and Geodisaster Management and New Technology in Engineering Geology

Chairperson: *Mr. Sagar Kumar Rai*

Co-Chairperson: *Mr. Kushal Nandan Pokhrel*

Rapporteurs: *Mr. Rajendra Acharya and Mr. Bishnu Thapa*

Hall - Regency		
Time	Title of Papers	Authors
14:00-14:15	127. Geophysical Study on Moraine Dam of Imja Glacier Lake in Eastern Nepal using Electrical Resistivity Tomography Method	<i>Pushpa Raj Dahal, Kabi Raj Paudyal, and Sudhir Rajaure</i>
14:15-14:30	128. Findings of geological, engineering geological and geophysical studies of the proposed Dotigad Hydropower Project area of Dadeldhura district, Far Western Nepal	<i>Champak Babu Silwal, and Kabi Raj Paudyal</i>
14:30-14:45	129. Sediment Load and its Source Identification: A Comparative Study of Lake Phewa and Kulekhani Reservoir, Nepal	<i>Prabha Neupane, Kumud Raj Kafle, Bed Mani Dahal, Chhatra Mani Sharma, Nani Raut; Smriti Gurung, Babi Kumuar Kafle, and Sushma Manandhar</i>
14:45-15:00	130. Dry Storm Period Sediment Dynamics of Southern Tributaries of the Bagmati River, Kathmandu Valley	<i>Dinesh Raj Sharma and Naresh Kazi Tamrakar</i>
15:00-15:15	131. Field-based assessment of rock discontinuity analysis and geological attributes particularly of stones for various engineering applications	<i>Sunita Bhattarai and Naresh Kazi Tamrakar</i>
15:15-15:30	132. The impact of earthquake and monsoon induced Landslides on Rural and Remote Transport Infrastructure - A case study from Nepal.	<i>Michael R.Z. Whitworth</i>
15:30-15:45	133. In-situ Direct Shear Testing (Block Shear Test) at Tanahu Hydropower Project, Tanahu District Western Development Region, Nepal	<i>Madan Raj Pokharel</i>
15:45-16:15	Tea Break	

Technical Session XXII: Response and reaction of earth materials to natural phenomena, Engineering Geology and Geodisaster Management

Chairperson: *Mr. Uttam Bol Shrestha*

Co-Chairperson: *Mr. Shiv Kumar Baskota*

Rapporteurs: *Mr. Sabindra Bahadur Shrestha and Mr. Kishor Acharya*

Hall - Regency		
Time	Title of Papers	Authors
16:15-16:30	134. Structure effects of rock slopes under homogenous and dip bedded rock slopes shaking table tests	Shengwen Qi, Zhifa Zhan, and Jianxian He
16:30-16:45	135. Assessment of the utility of improved slaking index test for characterizing some clay-bearing sedimentary rocks in Indonesia	Imam A. Sadisun, Misbahudin, Indra A. Dinata, and Hideki Shimada
16:45-17:00	136. The effect of slope inclination on seismic bearing capacity of footing resting near the slopes	Rajesh Prasad Shukla, and Ravi Sankar Jakka

Technical Session XXIII: Neotectonics, Case studies for geohazard management, Engineering Geology and Geodisaster Management

Chairperson: *Mr. Krishna Prasad Kaphle*

Co-Chairperson: *Mr. Narayan Adhikari*

Rapporteurs: *Mr. Manish Chaudhary and Mr. Arjun Bhattarai*

Hall - Crystal hall		
Time	Title of Papers	Authors
11:30-11:45	137. Structural control of the seismicity in Western Nepal revealed by the Hi-KNET seismological network	Laurent Bollinger, Roser Hoste-Colomer, Hélène Lyon-Caen, Shiba Subedi, Mukunda Bhattarai, Bharat Koirala, Ratna Mani Gupta, Thakur Kandel, Kapil Maharjan, Ramesh Pandey, Corentin Quedec, and Lok Bijaya Adhikari
11:45-12:00	138. Precise location and mapping of the Main Central Thrust Zone in reference to micro-structures and deformation along Khudi-Tal area of Marsyangdi Valley	Lokendra Pandeya and Kabi Raj Paudyal

12:00-12:15	139. Pipeline Rupture and Post-Construction Geohazards Assessment of Pipeline Route over Mountainous Region in East Malaysia	Abd Rasid Jaapar
12:15-12:30	140. Development of generalized regression model for soil depth to bedrock in an anthropogenic landscape – a case study of Phewa Watershed in Panchase region of Central-Western Hills of Nepal	Sanjaya Devkota, Narendra Man Shakya, Karen Sudmeier, and Brian G. McAdoo
12:30-12:45	141. Geohazard vulnerability scenario of megacity Dhaka, capital of Bangladesh	Maliha Malek, and A.S.M. Woobaidullah
12:45-13:00	142. Experimental study on rock stability assessment with strength deterioration of slide surface	Yan Du, Mowen Xie, Hongke Song, Asim Farooq, Yujing Jiang, Edward J. Williams
13:00-14:00	Lunch Break – Lunch at Madhuban Garden, Hotel Yak and Yeti	

Technical Session XXIV: Engineering geology in disaster risk management, Integrated engineering geology in infrastructural development for stability and sustainability

Chairperson: *Mr. Ram Prasad Ghimire*

Co-Chairperson: *Mr. Laxman Subedi*

Rapporteurs: *Mr. Anuj Khanal and Ms. Alina Karki*

Hall - Crystal Hall

Time	Title of Papers	Authors
14:00-14:15	143. Towards effective and sustainable disaster risk management in Nepal: challenges and gaps	Ramesh Tuladhar
14:15-14:30	144. Risk understanding and measures undertaken to be prepared for future earthquake event in the aftermath of 2015 Gorkha Earthquake in the Pokhara Valley	Chandani Bhandari and Ranjan Kumar Dahal
14:30-14:45	145. Mechanism analysis of sinkholes formation at Jili village, Laibin city, Guangxi province	Jianling Dai, Weiquan Luo, Yuanbin Wu, and Xiaozhen Jiang
14:45-15:00	146. Liquefaction countermeasure of groundwater level lowering method installing permeable pipe by jacking methods	Takao Hashimoto and Tositaka Shimizu
15:00-15:15	147. The worlds southernmost geotechnical	Sophie Bainbridge and

	investigation, Ross Island, Antarctica	<i>Tim McMorran</i>
15:15-15:30	148. Engineering Geology of Cross-Himalayan Railway Alignment and its Preliminary Design	Zhen-ming Shi, Yuan-yuan Zhou, Wei-ran Liu, Qing-zhao Zhang, Dan-xuan Xue, and Megh Raj Dhital
15:30-15:45	149. Development of procedure to create building inventory for earthquake loss assessment and risk management	Suman Pradhan, Kapil Bhattarai, Deepak Saud, Shamir Kumar Singh, and Surya Narayan Shrestha
15:45-16:00	150. Cross-Faults and their Role in Himalayan Tectonics and Natural Hazards: a possible example from the Solukhumbu region	Mary Hubbard
16:00-16:15	Tea Break	

Technical Session XXV: Response and reaction of earth materials to natural phenomena

Chairperson: *Dr. Ramesh Man Tuladhar*

Co-Chairperson: *Dr. Suman Manandhar*

Rapporteurs: *Mr. Bhim Rana and Miss Biddhya Regmi*

Hall - Crystal Hall		
Time	Title of Papers	Authors
16:15-16:30	151. Determination of Representative Volume Element at the Songta Dam Site	Shengyuan Song, and Qing Wang
16:30-16:45	152. Dynamic Behavior of the Peaty Soils in Kayseri Free Trade Zone (Turkey) and Comparison of Their Site Response with Two Seismic Codes in Europe	Nazlı Tunar Özcan, Reşat Ulusay, and Nihat Sinan Işık
16:45-17:00	153. The study of energy released and strong ground motion during earthquake (2015) using wavelet analysis	Binod Adhikari, Subodh Dahal, Monika Karki, Roshan Kumar Mishra, and Narayan P. Chapagain

11 Valedictory Session

Chief Guest: Honorable Vice President of National Planning Commission Dr. Swarnim Wagle

Chairperson: Dr. Kabi Raj Paudyal, President Nepal Geological Society

Hall - Regal 1

Time	Activities
17:30 – 18:00	Speech by: Prof. Scott Burns and Prof. Faqwan
	Congress report: Dr. Dandapani Adhikari, Convenor IAEG ARC-11
	Best students award announcement: Dr. Ranjan Kumar Dahal
	Presentation from next ARC team:
	TBN
	Speech by Chief Guest
	Vote of Thanks: Dr Ganesh Tripathi, Vice President Nepal Geological Society
	Concluding Remarks: Dr. Kabi Raj Paudyal

Master of Ceremony (MC): Dr. Kamala Kant Acharya, General Secretary Nepal Geological Society
